

Triton Healthcare Partners and Evolutions Healthcare Systems announce Strategic Partnership for Innovative Workers Compensation Network Delivery Model

FOR IMMEDIATE RELEASE

May 16, 2018 – Philadelphia, PA and Tampa, FL – Triton Healthcare Partners and Evolutions Healthcare Systems (EHS) are pleased to announce their formation of a strategic partnership designed to enhance the delivery model for provider networks servicing the workers' compensation insurance industry.

"We are excited by the enhancements that this new partnership will bring to workers' compensation," says Curt Neel, President of Triton Healthcare Partners. "By combining our resources, we will be positioned to provide customized network solutions through targeted claims and provider population management. This will serve to achieve our end goal of delivering improved provider network configurations and ultimately generating cost savings and better outcomes."

About Triton HealthCare Partners tritonhealthcare.net

Triton HealthCare Partners offers an enhanced network strategy with incremental client savings and a complementary processing solution with existing managed care service partners. Our clients and partners benefit from a **value-added** network service and lower aggregate cost structure.

Targets: High dollar recurring medical claims, complex cases with specialty exposure, specialty claims with management coordination, prospective referrals and retrospective savings, quality providers with confirmed discounts.
